## LEAGUE TAXPAYERS START SUIT IN SUPREME COURT LEAGUERS MAKE DEMAND FOR NEW LEADERSHIP

### COMMANDER OF ALLIED ARMIES TO BE GUEST OF STATE LEGION; ROYAL WELCOME BEING PLANNED

Marshal is Making Trip to Pacific Coast and Bismarck is Only City in North Dakota in Which He Will Stop—Parade and Program at Auditorium Are Being Arranged by American Legion Post—Citizens Asked to Decorate in Honor of Distinguished Guest.

Marshal Ferdinand Foch, commander-in-chief of the allied armies in France in the World War, will visit Bismarck Sunday, November 27.

It is the only city in North Dakota he will visit. He will arrive in Bismarck at 11 a. m. on his special train and remain until 12:30 p. m.

MARSHAL FOCH

Marshal Foch will be guest of the North Dakota Department of the American Legion. He will be accompanied by aides, American officers and Hanford MacNider, commander of the American Legion. There is a possibility that General Pershing will accompany him.

Immediately upon receipt of word that Marshal Foch would visit the capital city of North Dakota the Lloyd Spetz post, American Legion, began making arrangements. A telegram received Sunday afternoon by Major Hanley, of Mandan, announced his coming.

#### Have Tentative Program

A tentative program immediately was arranged. There will be a short parade from the Northern Pacific station west on Main to Third street, north on Third to Broadway and east on Broadway to the Auditorium.

There will be a program at the Auditorium. The meeting will open with singing of the "Marseillaise" and close with singing of "The Star Spangled Banner." The Governor of North Dakota will preside. Commander MacNider, of the Legion, will make a short talk. Commander Philip R. Bangs, of Grand Forks, of the North Dakota Department of the Legion will make a few remarks; the Community Chorus will sing, and Marshal Foch will speak for about 20 minutes.

#### Win Over Other States

Marshal Foch is traveling to the Pacific coast. Bismarck will be the first stop after leaving the twin cities. It was the North Dakota Delegation at the American Legion convention that put up the argument that resulted in a decision upon the part of those arranging the western trip to route the Foch special through North Dakota. Several other western states competed for the honor. The special train will change engines in Mandan and the Mandan post of the Legion plans to present the Marshal with a deer so that the party will have venison on the trip.

Bismarck and Mandan Legionnaires will be at the station when the train arrives. It is expected that the newly formed Indian post at Ellsworths will be represented and perhaps Indian service men from Standing Rock. The band, a half dozen automobiles and Legionnaires will make up the parade. It is hoped to group all school children on the federal building steps and plaza so that they will not go to the Auditorium and the Marshal will make a short stop there.

Legionnaires will occupy seats on the platform. The Governor and Mayor will be the only civilians on the stage. Aides of Foch and other dignitaries in his party will occupy boxes. War Mothers, members of the Legion auxiliary and the Community Chorus will occupy reserved seats.

A Legion committee will meet the presidents and secretaries of the Town Officers, Rotary club and Lions club tonight to ask these clubs to assist in preparations. An especial effort will be made to have the city well decorated, including the French tri-color.

Following the Auditorium meeting General Foch will be taken for a short drive around the city. Bismarck is the smallest city the Marshal will have visited.

#### Today's Weather

For 24 hours ending at noon, November 20.  
Temperature at 7 a. m. 46  
Highest yesterday 56  
Lowest yesterday 32  
Lowest last night 28  
Precipitation .00  
Highest wind velocity 15-NW

#### Weather Forecast

For Bismarck and vicinity. Some what unsettled tonight and Tuesday, continued cold.

For North Dakota. Generally fair in the north portion, somewhat unsettled in the south portion tonight and Tuesday, continued cold.

#### Weather Conditions

A high pressure area accompanied by sub-zero temperatures extends from Alberta to Minnesota, while low pressure areas accompanied by moderate temperatures extends from the north Pacific coast to Texas. Light to moderate snowfall has occurred generally from the north Pacific coast across the northern border states to the Lake region.

ORRIS W. ROBERTS, Meteorologist.

### FRANCE CANNOT DISARM, ASSERTS PREMIER BRIAND

Tells Armament Conference  
Delegates That Germany  
Can Raise Great Army

#### MAKES DRAMATIC SPEECH

Points Out Danger to France

While Declaring That Country Wants Peace

TO REDUCE ARMY.  
Washington, D. C., Nov. 21.—Premier Briand of France, told the arms conference the further reductions in her army which would bring it to half its former strength, but would still leave, of course, the force which he contended was necessary to assure her security.

Washington, Nov. 21.—(By Associated Press.)—Germany, while apparently disarmed, Premier Briand of France told the armament conference today, could with her present machinery raise an army of 6,000,000 or 7,000,000.

At least 250,000 Germans were receiving daily military instructions, he added.

Although a part of Germany evidently wants peace and is ready to get back to peaceful pursuits, the French premier declared, another portion headed by Ludendorff and others of the military staff is continuing to preach the old Prussian doctrine.

In a dramatic speech of an hour the French premier outlined to the conference "what is being done at the door of France" which, he added, wants peace.

"How can any one ask France to disarm under such conditions?" he asked.

France Asks Guarantee  
Strasbourg, France, Nov. 21.—Premier Briand will declare for guarantees necessary to the security of France at the Washington conference, Minister of War Barthou said in an address here at the celebration of the third anniversary of the return of French troops to Strasbourg. France, he said, was ready to accept limitation of land armaments on certain conditions such as the complete disarmament of Germany. Before any disarmament by France it would be necessary to place Germany in a position where it would be impossible for her to endanger the peace of the world.

### INJUNCTION IN GRAIN SUITS IS RESTORED

Washington, Nov. 21.—Chief Justice Taft announced today that stay and super sedas granted in the cases of the attorney general of North Dakota against the Farmers Grain Co. of Ellendale and of the attorney general against the Homer Farmers Elevator company and others would be vacated without prejudice.

State officials were enjoined from enforcing provisions of the state law found to be in conflict with the federal statutes, but this injunction, suspended by writ of super sedas, today was set aside, leaving the injunction in effect pending final disposition of case on merits.

### BELFAST RIOT BRINGS DEATH

Belfast, Nov. 21.—(By the Associated Press.)—One man was killed and another was wounded in a renewal today of the rioting which broke out in the Seaforth district in East Belfast yesterday when rival factions clashed. Four persons were sent to hospitals and numerous others were slightly injured in yesterday's disturbance.

Today's recurrence of the trouble was met promptly by the authorities and the situation was speedily brought under control.

### "PAPA DID IT," SAYS 10-YEAR-OLD BOY AFTER TRIPLE MURDER IN OHIO

"papa did it." The victims were Mrs. Jess Whitlow, 57, who told authorities on her deathbed that Vanderport had done the shooting after he had come to the home intoxicated and started a quarrel with Whitlow Vanderport, twice divorced from Vanderport and Howard Horner, 21, said to have been a caller on Mrs. Vanderport.

### LORD'S PRAYER ON BOY'S LIPS AS HE DROWNS

Montevideo, Minn., Nov. 21.—After saving his brother, Bert Benson, 10 years old, from drowning Lloyd Benson, 17 years old, repeated the Lord's prayer as he lost his own life in the Chippewa river here.

The Benson boys with some companions were playing on the ice when the younger boy fell in. Lloyd went to his assistance and managed to get the boy out onto the ice but became exhausted himself and his companions were unable to pull him from the water. The boy went down repeating the Lord's prayer, his companions said.

Members of the fire department recovered the body soon after the accident.

### ORDER ISSUED TO ROADS FOR GRAIN, HAY CUT

Positive Instructions To Reduce Rates in Western Territory Are Given

#### ROADS HAD DEMURRED

Wishes to Cut Amount of Reduction—North Dakota and Other States Affected

Washington, Nov. 21.—A positive order was issued by the Interstate Commerce Commission today to put the approximately 16 per cent decrease in hay and grain rates into effect on or before next December 27.

The order follows up the decision given on October 20 by the commission which declared grain and hay rates from the Mississippi Valley to the Pacific Coast unreasonably high but which did not carry compulsory orders. The October decision instructed the railroad to make the reduction by November 29 which was not done because the railroads opened negotiations with the commission suggesting that a ten per cent decrease in freight rates on all agricultural products be substituted for the larger decrease on grain products and hay alone.

The commission, however, by the order issued today disregarded the compromise proposed by the railroads and makes the larger decreases on hay and grain mandatory upon the roads.

#### Specific and Definite

The order issued today made specific and definite the hay and grain reduction.

The original decision said railroads should reduce the rate on the products concerned by one-half of the increase given in 1920. The commission today ordered hay and grain rates between points in Mountain Pacific territory at not more than 12 1/2 per cent above the rates in effect before the 1920 increase.

Between points in the western group as defined in its decision where 40 per cent increases were allowed in 1920 the commission today ordered their made effective at 20 per cent; between other western group points the commission held rates should not exceed 17 1/2 per cent above the old schedule.

#### Groups Concerned

The western group mentioned in the order includes the territory between the Mississippi and Illinois rivers and the north and south boundary lines on which the states of North Dakota, Montana, South Dakota, Wyoming, Nebraska, and extending south to El Paso, Texas. The Mountain Pacific group lies between the western group and the Pacific coast.

### SOO HEARING IS ORDERED

Railroad Commission Issues Formal Notice

The state road commission has issued the following formal order:

"Complaint having been made to the Commission by a delegation of Bismarck citizens, objects to the proposed changes in the schedules proposed by the Minnesota, St. Paul and Sault Ste. Marie Railway Company on its line known as the Missouri Valley Branch, particularly that portion operating between Bismarck and Minot, and between Bismarck and Wahpet, and requests being made that before any changes are authorized, public hearings be held in the matter."

"It is ordered, that hearing be held in the matter, Wednesday, November 23, 1921, at 9:00 a. m. in the conference room of the Board of Railroad Commissioners. All interested parties are invited to be present and offer such testimony as may be pertinent to the case."

Marie Antoinette had a handkerchief that was embroidered with pearls valued at \$5000.

### WANT TOWNLEY AGAIN TO LEAD LEAGUE'S FIGHT

Mass Meeting Here Wants Convention in Bismarck; in February, 1922

#### ENDORSE ADMINISTRATION

Resolutions Regarded as Open Demand on Nonpartisan Committee to Give up Reins

Four hundred Nonpartisans from 16 counties, in meeting here Saturday night, adopted a resolution inviting Arthur C. Townley to return to league leadership in North Dakota.

In addition the meeting adopted a resolution asking that the league convention be held in Jackson county, Minnesota.

The adoption of the resolutions marks an open demand for a new league leadership in the state. Townley was eliminated from active charge of the league work in the state less than a year ago. He now is asked to return.

Chairman A. A. Liederbach, of the league executive committee, had announced he favored a league convention in November, to be held in Fargo. He made this announcement after Mr. Townley had indicated a desire, subsequent to the election, that the convention be held in February. The meeting here not only asked that the meeting be held in February, but that it be held in Bismarck.

The position of Attorney-General Lemke is not made known but those presenting the resolutions are numbered among his friends. In the view of some leaguers, Mr. Lemke, whom they say successfully managed all league campaigns until the recall campaign, which he did not manage, will become the leader of the league forces again in the convention in February, because there is opposition to both the present state committee and to Mr. Townley.

#### Endorse Officials

The meeting, which was called as a reception to Governor Frazier, Attorney-General Lemke and Commissioner of Agriculture and Labor Hazen, adopted a resolution endorsing these officials and a resolution endorsing the proposed suit to nullify the recall election.

While the meeting was called by Burleigh and Morton county league committees, the presence of Nonpartisans who are here engaged in preparation for the recall suit brought the number of counties represented to 16.

Whether Townley will be able to return to leadership in North Dakota without a big fight in the league organization is a matter of speculation among politicians. In every election in which a political organization is defeated there is a responsibility placed by supporters of the defeated candidates. Nonpartisans have freely discussed the causes of the defeat in the recall election.

#### Place Defeat Blame

There has been dissatisfaction expressed with the conduct of the league campaign by the state committee headed by A. A. Liederbach. Other members of the committee are Christ Levang, Ole Kaldor, Walter Maddock and R. H. "Dad" Walker. It is no secret among politicians that there has been disagreement in the committee, and the recall election is no exception.

The resolutions committee of the Saturday night meeting was headed by R. H. Walker. Mr. Walker has been regarded as a close friend of Attorney-General Lemke and an opponent of the policies of the majority of the league committee represented by Liederbach, Kaldor and Levang. Mr. Maddock, of the state committee, was in Bismarck Sunday. Liederbach, Kaldor and Levang were not here. The present state committee serves until the next convention.

There is, of course, a large opposition to Townley among the Nonpartisans. He was ousted from control of the league in North Dakota because the opposition was strong enough to do it. Townley also has many friends and his political ability is generally recognized.

#### Views of Townley Side

Oliver S. Morris, publicity man for the National Nonpartisan League, writing in The Nation on the league defeat touched upon the situation as follows:

"Some minor causes of the defeat should be mentioned. The ambitions of some of the North Dakota League leaders succeeded over a year ago."

#### CAN REGULATE FARES

Washington, Nov. 21.—Street car fares in Chicago are subject to regulation by the Illinois utilities commission the supreme court held today.

### POLITICS AGAIN IS BUZZING IN HOTEL LOBBIES

A large number of Nonpartisans flocked to Bismarck Saturday and Sunday because of the prospective suit to nullify the election. Independents began to arrive in numbers Sunday to be here for the expected inauguration Wednesday afternoon. Independents refuse to take the proposed contest seriously and are looking forward to greeting R. A. Nestos as Governor. The hotel lobbies are filling up.

R. H. Walker and Walter Maddock are two members of the Nonpartisan state executive committee who are in the city. Other members are not expected to be here. Representative Weld, old Kidder, Rep. Vogel, of McLean, and Rep. Del Patterson were among familiar Nonpartisan figures here.

Treadwell Twichell, of Mapleton, came in to look things over and probably stay over until Wednesday to witness the expected change in the state administration. Theodore Nelson, secretary of the Independents, who went to Fargo Saturday, came back last night to watch the contest and the inauguration.

R. G. Katron, of Jamestown, has been selected as deputy commissioner of agriculture and labor by Commissioner-elect Joseph A. Kitchen. Mr. Katron was on the house of representatives staff last winter.

A force of 15 to 20 people worked Saturday night and Sunday and Sunday night in preparation for the expected nullification suit of the Nonpartisans. They were checking counties and helping to draw up affidavits.

The Fourth Estate will be well represented at the inauguration. H. D. Paulson, of the Fargo Forum, and John Cooley, of the Grand Forks Herald, came in for the week's events. Lars Siljan, of the Normandien and publicity man for the Independents in the recent recall campaign, was to be on deck. Olaf Ribb, editor of the Minot league paper, has been on deck for a couple of days. Geo. McPherson of Fargo well known in the newspaper field, now engaged in the engraving business, dropped in.

Independents do not expect a special session of the legislature. Independent control in the house is imperiled by death and resignation of members Christ Ness, of Richland county, dead; Joseph A. Kitchen was elected Commissioner of Agriculture and Labor; Harold Semling is in Col. Frank White's office in Washington, and M. O. Granger of Bismarck county is in Minneapolis secretary of the War Finance corporation for the northwest. He has not surrendered his residence in Barnes county. It is understood, Independents appear to have a majority of one on the present basis with the league still having one majority in the senate.

### LIFER WHO GOT OUT OF PRISON HERE CAPTURED

Clarence Orton Held at Regina, Saskatchewan, According To Word Here

Clarence Orton, alias Reynolds, who escaped from the state prison here in October, 1920, has been captured at Regina, Saskatchewan, according to a telegram received by Warden Stait. Further particulars were awaited by the warden before sending a man armed with a requisition for Orton's return.

According to word from there Orton was identified by a former warden of the penitentiary several months ago who saw Orton coaching a baseball team at Ellsworth, Saskatchewan. The police were notified but trace of the man was lost until Saturday when he was discovered in Saskatchewan. He submitted to arrest without trouble.

Orton was from Towner county, serving a life sentence for murder. He played baseball with the prison team when here. He had been given privileges around the prison and walked off in October a year ago. Warden Stait said today there are now only two persons who were released from the prison who have not been recaptured.

### MARINE SHOTS TO KILL WHILE GUARDING TRAIN

Bozette, Wis., Nov. 21. Otto Lambrecht, one of the men who was shot by marine guards Sunday morning when they attempted to strand a kaidan, was improving at a hospital in Green Bay this morning. No trace of Lambrecht's companion who visited him Sunday afternoon in the hospital could be found today. Police said they would question Lambrecht this morning.

### ASK COURT FOR HEARING UPON ELECTION PLEA

Would Present Petitions For Acceptance of Jurisdiction Here Tomorrow

#### INDEPENDENTS TO RESIST

Assert That Numerous Mistakes Were Made By League Employees Copying Names

HEAR ARGUMENTS AT ONCE.  
After the petition was presented to the court—it was decided to hear the arguments at once. Justice Robinson was the first to express himself. He said that there was no doubt as to original jurisdiction but there was a question whether the suit had been brought in time and whether the contestants had any standing in court.

He declared also that it was his opinion that the recall provision required that petitions be signed by thirty per cent of all voters at the previous election. Justice Christensen said that that issue had been before the court in another case but never disposed of.

The much-heralded petition to nullify the recent recall election was filed in the supreme court at 3 o'clock this afternoon.

The petition was accompanied by affidavits covering nearly 75 typewritten papers, setting forth alleged frauds in signatures to recall petitions and alleged signing of petitions by persons who had not voted for Governor last year, the basis of the action.

The supreme court was asked to hear attorneys for the taxpayers tomorrow morning on their petition to the court to assume original jurisdiction.

The title of the case is *State of North Dakota ex rel George D. Laird, E. S. Sheveland, John Bauer, Leonard Bauer and R. W. Frazier as citizens vs. Thomas Hall, John Steen, D. C. Poindexter, William Lemke and Minnie J. Nielson as state board of canvassers.*

The petition states that the suit is approved by the Attorney-General.

The supreme court was asked to issue an order directed to the respondents to show cause to the court why they should not be permanently enjoined and restrained from meeting as a state board of canvassers and that pending a hearing upon the order to show cause the respondents be enjoined and restrained from meeting and canvassing and from declaring the result of the election.

The petition recites that the necessary number of signatures to petition to obtain a recall election is 68,852. It alleges that there were many fraudulent signatures and illegal signatures (it being contended that persons who did not vote for Governor in 1920 could not sign the petitions) and alleges that the actual number of legal signatures does not exceed 60,000. It alleges that there are at least 12,000 illegal signatures. There were about 74,000 signatures reported by the secretary of state.

The petition is accompanied by affidavits from George Laird, Herman Hardt, Frank Prater, P. H. Miller, John Bloom, R. O. Bryant, Chas. F. Skaser, R. W. Frazier, Sebrin Erickson, A. McCoy, L. H. Elliott, Fred Hanson, John F. Rooney, L. H. Miller, Robert Franzen, Elsie Kanne, E. R. Sinkler, Jake Dewing, Mrs. M. D. Craig, C. J. Kopriva, L. M. Howell, T. B. Garberg, J. F. Calderhead, A. H. Gallagher, Esther Liederbach, Otto Simonson, Henry C. Hanson, Fred Haukeon, A. B. Hermann, C. E. Joyce, Jennie Heck, R. O. Bryant.

While the Nonpartisan taxpayers' attorneys were preparing the suit, Independents were discussing means of defense should the case actually go to trial.

#### Independents Resist

It developed during the day that the Independents would, if the case goes to trial, not only contest it upon points of law but on questions of fact. They will assert that in copying the names of the petitions numerous mistakes were made such as a name "Langer" being copied as "Wanger" with the result that the incorrectly copied name could not be associated with any person in the locality from which the petition came.

Edward Smoller, one of the attorneys for the taxpayers' committee, declared that if the checking of perhaps half the counties is indicative of the final situation, there will be found 12,000 illegal names on the recall petitions. The excess of the names over the required number is about 5,000. (Continued on Page 6)

# MANY INVOLVED IN BOOZE PLOT

Involved Bribes of \$50,000 To  
Public Officials, Claim

Chicago, Nov. 19.—A rum plot which involved proposed bribes of \$50,000 to public officials, a suitcase full of liquor permits for \$7,000 gallons of whiskey worth more than \$2,000,000 at the retail prices charged by drug stores and which linked the names of several prominent men of New York and Chicago with the bootlegging trade has been uncovered here, federal agents announced today.

With seizure of permits two men giving their names as William McCauley and Nathan Epstein involved in the plot were arrested.

The men said they were agents of a group of New York men who intended to withdraw the whiskey from bonded warehouses in Chicago by means of the forged permits.

# EXAMINATIONS FOR POSTMASTER ARE ANNOUNCED

Examinations to fill the position of postmaster will be held on Dec. 10 for a number of North Dakota postmasterhips. It is announced by the U. S. Civil Service. All are for third class offices. Among the cities at which examinations will be held is Bismarck. The name of the officer, the salary and date of vacancy include:

Galesburg, \$2,100, Jan. 24, 1922.  
Conynbrooke, \$1,600, Jan. 24, 1922.  
Garrison, \$1,600, Jan. 24, 1922.  
Mott, \$2,100, Jan. 24, 1922.  
New Salem, \$2,600, Jan. 24, 1922.  
Taylor, \$1,500, Jan. 24, 1922.  
York, \$1,400, Jan. 24, 1922.

# FARGO BOY IS HURT IN GAME

Galesburg, Ill., Nov. 19.—Reuben Brockmuller, Brockmuller of Fargo, N. D., 10, left guard on the Lombard eleven, suffered a concussion at the base of the brain and injury to the spinal cord in the Knox-Lombard football game here yesterday. He will recover, it was said.

Fifty or more fans crashed to the middle ground when one of the old bleachers gave way. No one was injured.

# GERMAN ESCAPES FROM PRISON

Hamburg, Nov. 19.—Former Lieutenant Commander Johan Boldt, who, with Lieut. Dittmer, was convicted of manslaughter for firing on the lifeboats of the Canadian hospital ship Llandanov Castle after the vessel had been torpedoed in the summer of 1914, has escaped from prison here.

# SCHOONER IS SUNK IN FOG

Boston, Nov. 19.—The five master schooner Sintram, a converted shipping board steamer, was rammed and sunk off Cape Cod by the tanker David McKelvie in a heavy fog last night. The Sintram's crew was rescued.

# DEDICATION OF NEW SCHOOL

Don't miss the chicken dinner which will be served Sunday, Nov. 20, 12:00 o'clock noon at the St. Mary's School after dedication under the auspices of the Catholic Daughters of America. Price 75c.

LEARN of the Vale of Paradise—where dreams come true. This wonder city is having a magic growth, and a million dollars in municipal improvements are authorized for this year. Every kind of business opening here. We have seventeen miles of protected water front, with gorgeously beautiful home sites. Wonderful homes. Wonderful velvety lawns. Wonderful flowers in semi-tropical profusion. Fishing supreme. Every day you can catch the big fellows until your back aches and your hands blister. Paradise for motor boats, with hundreds of miles of protected waterways with wonder spot to visit. Finest motoring roads in the south. Bathing in bay and gulf wonderful. Healthiest city in America, with no business for doctors. Greatest golf course in America under construction. Coolest place in America in summer, delightful in winter. You may own a beautiful home here, with a perpetual income, at practically no investment. Grasp the opportunity of a lifetime. Address THE MAYOR, Valparaiso, Fla. Adv.

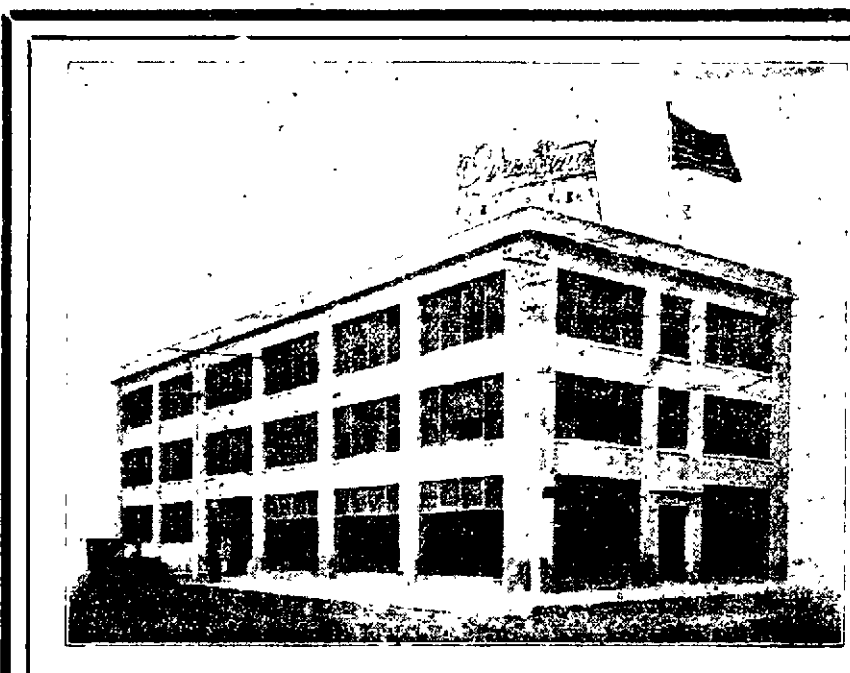

Try and say, "The Men's Clothes Shop."

NOW is the time to have us adjust the generator if it isn't delivering its full rated capacity—for your battery will need all the "juice" obtainable to keep up with the demands of cold stiff motors and long nights.

Let us examine the whole system NOW and be sure of A-1 starting, lighting and ignition this winter.

## CAR NEEDS GREATER CARE DURING COLD WEATHER

### How To Enjoy Winter Driving

With the closed car and all sorts of heating arrangements more popular than ever, it is estimated fewer automobiles will go into dead storage this winter than in the past.

But manufactured conveniences will not make winter motoring pleasant unless the car gets all the attention and care necessary for cold weather driving.

The motorist's greatest attention should be paid toward the engine, for that is his chief source of trouble in winter. He should keep the hood and radiator covered. The gasoline should be cleared of water and other impurities and an anti-freeze solution placed in the water system.

The best anti-freeze solution is about a gallon of denatured alcohol, or alcohol and glycerine in equal proportions, to three of water. This freezes at about 10 degrees above zero, Fahrenheit. For colder weather the alcohol mixture should be greater.

If the engine doesn't start immediately on depressing the starter button, the motorist should resort to the priming and crank method. The battery should not be overworked, for the long nights and short days during winter mean added current for the lights. Besides, the battery's efficiency is lowered with a drop in temperature.

A cold engine will start best after being primed with high test gasoline or ether. The crank should be used to limber up the engine. The choke should be used sparingly, for overuse causes the raw fuel to run through into the crankcase.

There is least load on the engine in starting if the clutch is held out while turning over the engine with the starting motor.

Lighter lubricant should be placed in the differential and transmission, for cold weather congeals the oil and furnishes more work for the engine.

For those who will store their machines until spring, here are a few tips:

Drain the water system and the gasoline and vacuum tanks. Cover the polished parts with vaseline to prevent rust. Jack up the car, leaving all the wheels free. Drain the battery and invert it to keep it dry. Let air out of all tires and hang up the tubes. Cover the whole car to keep parts free from dust.

Alcohol lowers the boiling point of water; use of glycerine counteracts this.

Alcohol boils at 172 degrees, 40 degrees below the boiling point of water.

Neutralize action of calcium chloride on metal parts by adding ammonia or soda ash.

There is little danger of battery freezing, except when it is almost discharged.

### To Make Motoring Easier

If there is electrical connection to the garage, there should be no trouble starting off in the morning. The "hot brick" method electrified may be sprayed gasoline and facilitating the starting.

To prime the engine for starting, pour a mixture of high test gasoline and ether into each cylinder through the priming caps at the top. Then limber up the engine with the crank and starting will come easily.

Prevent cold drafts coming up through the openings for the clutch and brake pedals, by gluing a piece of sheet rubber or leather to the bottom of the toe board, as shown, with merely a slit for the pedal arm.

### More Anti-Freeze Motor Tips

Keep the garage warm. Beware of overheating the engine. Always keep the engine warm. Keep tire cuts filled with self-hardening mixture. In very cold weather, remove the fan belt. Steering gear and brakes should be in good shape. Keep tires inflated at proper pressure. Race engine just before turning it off, to prime cylinders for starting. To insure against freezing of fuel, mix benzol with gasoline.

### Adjust the brakes for heavier weight.

Run the engine a while before starting off.

Skidding and ditching cause 12.7 per cent of the automobile accidents in the United States.

Riding over pieces of ice may cause cuts in tires. Fill them up immediately.

An automatic windshield cleaner, operated by vacuum from intake manifold is being manufactured.

Persons using benzol as fuel need fear no winter, for that fuel freezes at about 7 degrees Fahrenheit.

A frozen water system may cause breakage of piping or radiator, or cracking of water jacket.

Airplane engines are kept warm by a special hot water heating arrangement.

# Battery Storage

In leaving your battery with us for the winter you have the satisfaction of knowing that it is in the hands of electrical experts. Our time and equipment is devoted exclusively to this service. We will be glad to advise with you as to the best method of caring for your particular battery. Don't just say "Store it."

## Electric Service & Tire Co.

215 Main Street

# NOTICE

Beginning Monday we will call for and deliver our storage customers' cars from 7 a. m. until midnight free of charge. This will of course be a wonderful convenience, virtually bringing steam heated storage to your own home. It is made possible by the remarkable volume of business we are doing this fall, and we are glad to make our customers a present of this extra service. At \$8.00 a month it is as cheap to keep your car with us as it would be to put it in dead storage with added expense in caring for the battery, etc. There is a limit to our capacity. Don't be among those who will be TOO LATE.

## CORWIN MOTOR CO.

# Your Battery

Don't chuck your battery into the basement and leave it until spring, if you want it to last—bring it to us and our experts will examine it and tell you whether it should be stored "wet" or "dry," or, is worth storing at all. It doesn't make any difference what make battery you have; our battery shop is equipped to store or repair it. Our battery men are battery experts. We stand behind every battery that goes out of our shop.

'Phone 490, and we'll get your battery—no charge.

## How to Care For Your Car In Cold Weather

### BATTERY

A battery showing 1225 gravity test will freeze at zero. Keep it fully charged. See that connections are tight and top is clean.

### GENERATOR AND STARTER

Increase the charging rate for winter to take care of the heavy drain on the battery. See that brushes fit and commutator is clean.

### HEADLIGHTS

Replace old bulbs. They burn too much electricity. See that all wire connections are tight.

### CARBURETOR

Adjust mixture richer. Clean out all dirt and close air shutter. Use heater from exhaust. Burn high test gas.

### PRIMER

Install a dash primer with atomizer on intake manifold.

### RADIATOR

Have leaks soldered up. Clean out sediment. Replace old rubber hose. Use alcohol at least 50-50 with water. Protect radiator with a cover. See that pump packing is tight.

### MOTOR

Drain crankcase every 500 miles and fill with light Mobiloil. Don't let oil pump freeze. It will burn out bearings. Keep car in a heated garage.

### TRANSMISSION & DIFFERENTIAL

Clean out grease and fill with Mobiloil A. The gears will shift better and lubricate.

### GREASE CUPS

Replace all cups with Alemite lubricators to insure positive lubrication.

### BRAKES

Inspect brakes and facing as snow makes them slip unless in perfect condition.

### TIRES

Fill cuts with tire putty to keep fabric from rotting. See that chains fit and have no broken links.

### BODY FINISH

Don't let ice or mud stay on body or fenders. Have car washed with lukewarm water often.

We will be glad to have you consult with us as to the care of your car. It does not pay to let trouble go on until the part breaks.

### BOND SUIT TO BE PRESENTED TO HIGH COURT

Sets Tuesday as Time For Hearing Arguments in Case Involving Contract

### COLE RENDERS JUDGMENT

The supreme court will hear the appeal of Attorney-General Lemke from the order of Judge A. T. Cole permanently enjoining the Industrial Commission from making further delivery of bonds under its present contract for the sale to an eastern firm Tuesday morning. When Judge Cole late Saturday afternoon entered his order after facts in the case had been stipulated the appeal was perfected and the supreme court immediately set the case for hearing Tuesday. Attorneys on both sides had agreed to expedite to the appeal and Judge Cole after the stipulation and argument made permanent the temporary restraining order granted by Judge Nussle.

The stipulation of facts embraced the following agreement: That \$1,486,000 of North Dakota bonds, serial C, at series, was sold and delivered to Spitzer, Rorick and company, on and between Sept. 20 and Nov. 5, and that between those dates the company paid \$1,486,000.

On November 2 the Bank of North Dakota paid the Industrial Commission by check \$1,225,000 on account of the sale transaction of \$1,486,000 of real estate series and on November 5 the bank paid the Industrial Commission \$216,500.

That the \$1,225,000 and the \$216,500 constitute \$1,441,500, or \$44,500 less than the \$1,486,000 of bonds, sold to Spitzer, Rorick and company, and that the Bank of North Dakota has not yet paid over \$27,000 but has it in its possession to pay.

That on Nov. 2 the defendant bank paid the Industrial Commission on account of the sale of bonds to miscellaneous purchasers \$87,500 and on November 5 paid \$216,500.

J. Kehoe and A. E. Wheeler, attorneys for the taxpayers who brought the suit, declared that the finding of facts revealed that the Bank of North Dakota had not collected about \$27,000 of accrued interest from Spitzer, Rorick and company and that as in law to sell bonds "for cash" means also accrued interest this is a violation of the law.

### BENTON BAKER ON COMMISSION

Governor Benson has appointed Benton Baker as an attorney of Bismarck to succeed his brother, Frank Baker, as member of the state high way commission to succeed April 1, 1922. Judge Baker resigned because of business interests it was said.

### Town Criers in Endorsement of Armament Parley

The town criers club has addressed a letter to President Harding endorsing the disarmament conference. The letter, written by W. F. Lumry, president and J. N. Johnston, secretary of the club, follows:

The Bismarck Town Criers club is in organization of the volunteer executive committee of promoting the disarmament conference and incidentally of the letter business and service to our city.

### BISMARCK MAN WINS SUIT ON DRILLED WELL

Frank Jaschowski of Bismarck, drilled a well for M. Barth, south of Mandan. Barth would not pay and engaged lawyers to resist the suit. The jury hearing the case in Mandan decided to visit the well 10 miles in the country, and engaged in cars to take them there, with the intent to find out if Barth's contention that the well was dry was correct. They found water in the well, and rendered a verdict on the spot for \$125 and taxed Barth

about \$150 expenses for the trip and lawsuit.

### U. S. EXPENSES ARE REDUCED

Washington, Nov. 21.—A deficiency appropriation bill carrying approximately \$104,000,000 or \$50,000,000 less than the \$154,000,000 requested by war department departments was reported today by the house appropriations committee. The navy asked for \$25,000,000 and was granted nothing while the Veterans Bureau which re-

quested \$121,000,000 was allotted \$1,000,000.

# 20,000,000 IN U. S. UNABLE TO READ OR WRITE, SAYS HANNA, PRES. OF N. D. TEACHERS ASS'N.

Mr. Hanna Shows Defects, Glories and Necessities of Schools and School Teachers

## 2 IMPORTANT PROBLEMS

Fargo, N. D., Nov. 21.—Making a ringing call for a thorough-going advance along all educational lines, President C. E. Hanna of the North Dakota State Teachers' association presented the annual report of the association head at the first session of the 1921 meeting here today. Challenging his hearers first to consider the highest pinnacle to which the profession of the schoolman calls, Mr. Hanna continued through the various fields of service, showing the defects, glories and necessities of the schools and of school teachers.

Among the defects he found the lack of appreciation of the schools found in the want of patronage, a want that had resulted in the present time in 20,000,000 in the United States being unable to read or write a letter. He found the low quality of teachers in preparation and ideals another defect which compelled 4,000,000 of today's pupils to submit to the instruction of teachers less than twenty-one years of age. Following this line he found another defect in a national life that spent but one-seventh of the amount for schools that it does for luxuries (statistics of 1918, last available).

Among the necessities of the schools he found the need of working the highest ideals of school service into the management, the need of a larger unit for management, suggesting the county or North Dakota, and increased support for these units so their heads might have a leadership which school funds at the present time cannot buy.

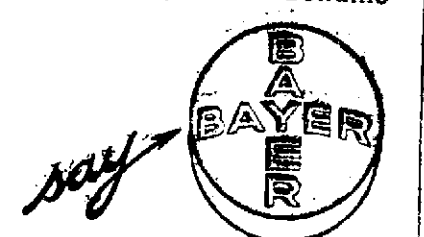

Among the glories, he found the opportunity for service, the right of leadership and the place which the schoolman of the best ideals may find in the profession.

"Democratic Government," declared Mr. Hanna in his opening sentence, "rests squarely upon the high average intelligence of its entire citizenry. Such high intellectual standards can be attained only through the systematic work of the schools, and the American school system thus becomes the bedrock foundation of our democracy. The moral, intellectual, commercial and civic stability and greatness of America depends upon her schools. Our success individually and nationally are tied to our schools. The American 'Melting Pot' is a special responsibility of our schools. Were our schools to disappear, oligarchy would supplant democracy. Every weakness of the schools will take its toll from the people and the government, finding expression in some form of weakness or dissatisfaction and every strength will be reflected back as prosperity, civic fervor, high statesmanship, as personal and national character. And the importance and burden of the schools must grow, for democracy is in its infancy and has yet to be piloted up through a great evolution. Again, as the world population becomes larger and elbow-room and food grow relatively less and the struggle for existence greater, it will become more indispensable that the schools prepare each man for his place as an individual and as a partner in the government. Viewed in this light no other institution, public or private, is more important than the school."

**Importance of Education.**  
The tremendous importance of education raises the success and failures of the school to problems of first magnitude. Then what is the means of making our schools measure up to the high standards ordained for them? As now outlined the ultimate control of the schools goes back to the people. The greatness of our schools will not on the whole, outreach the standards set by this ultimate authority. Think—

## ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as sold in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Cold, Headache, Neuralgia, Rheumatism, blots, cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monacopolis, Germany.

in district court previous to the signing of the agreement. Requests for immediate payment of claims on a percentage basis have been forwarded to Washington, D. C., by local attorneys for the administration in what are known as the Great Northern and Missabe districts. With these three cases compromised, the administration is expected to proceed to carry out its offer to pay 50 per cent to 278 claimants, and either 30 or 40 per cent to about 1,800 others. The 40 per cent will be paid to the persons having claims in excess of \$25,000.

## MANDAN NOTES

### Cases Are Tried In District Court

Several cases of small importance have been disposed of recently in district court before Judge Thomas Pugh. Peter Doll secured a verdict against Michael Barth for \$60 damages in a legal battle over the damages caused by pigs. Attorney A. T. Faber represented the plaintiff and Norton & Kelsch the defendant. George Halder secured a verdict and an award of \$25 damages to a cow which had been taken up by Martin Zerhnt. The attorneys were Sullivan, Hanley & Sullivan and Norton & Kelsch. The action brought by Christian Glavkee vs. Sebastian Heinrich was settled out of court and dismissed.

Two suits brought by Jacob and Adam Schaff vs. Jacob Schwartz were tried as one and the jury gave the Schaff brothers \$55 each against the plaintiff. Sullivan, Hanley & Sullivan were counsel for the plaintiff and Attorney A. T. Faber for the defendant.

At noon Friday the court began hearing the evidence in the case of Francis Jasowick. Attorney F. E. McCurdy of Bismarck vs. M. Barth, with Sullivan, Hanley & Sullivan as counsel. The action involves an amount alleged due the plaintiff for well drilling.

### Mr. McClelland to Speak at Code Commission Meeting

Supt. W. F. McClelland of the state training school left Friday morning for Fargo, where he attended the session of the Children's Code Commission. Supt. McClelland will report to the commission the changes in system and conditions at the state school and will also recommend further improvements. The Children's Code Commission is composed of heads of several state welfare organizations and is empowered by law to codify laws relating to children and to prepare recommendations for revisions in laws governing children's welfare for the next session of the legislature.

Leonard Newgard left Saturday morning for Seattle, Wash., where he will join Mrs. Newgard and baby daughter, who have been visiting there for the past two months. Mr. Newgard has resigned his position with the Missouri Valley Grocery company and will locate permanently in Seattle.

Mr. and Mrs. F. L. Schaffer left yesterday for Shenandoah and Council Bluffs, Iowa, and Kansas City where they will visit relatives for three weeks.

Mrs. R. M. Welch left yesterday for Nashville, Tenn., where she will visit her son Clyde, who is attending Vanderbilt university at that place.

Mr. and Mrs. Jesse Reko has returned from Hutchinson, Minn., where they had taken the body of J. S. Reese, father of Mrs. Reko for burial.

Harriet and Ora Budgick of Mandan, spent Sunday in Bismarck the guests of Mrs. William Zeamer and her daughter, Isabelle.

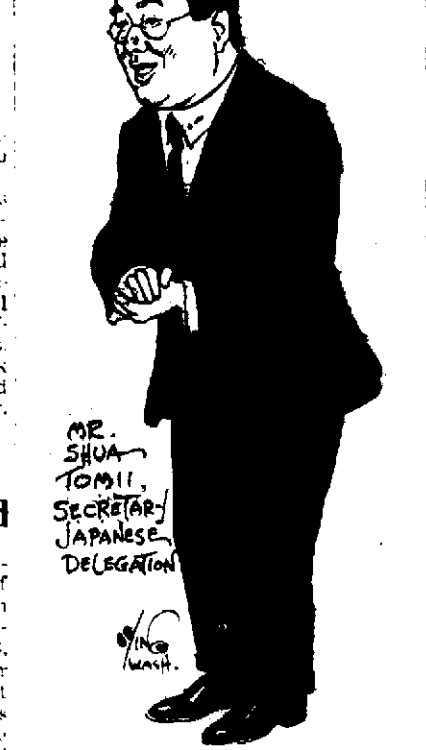

Mrs. Thomas Wilkinson and daughter Alice, of Mandan, spent the week end visiting at the Arthur Wilkinson home at Bismarck.

Miss Eva Barron and Mrs. Melvin Bull of Mandan were shopping in Bismarck on Saturday.

Mrs. M. McDermough has left for Portland, Oregon, where she will visit with relatives.

Mrs. E. Loveland has gone to St. Paul for a visit with friends.

## JAPS KEEN FOR U. S. CUSTOMS

By NEA Service  
Washington, Nov. 20. "American customs were introduced into Japan long ago and we have digested them." It was Mr. Shua Tomii, long speaking, Three years Mr. Tomii was attached to the Japanese consulate in New York and then sent to the em-

This 200-ton cement silo at Mooseheart, Ill., was dynamited to make way for a campanile in honor of James J. Davis, founder of the Mooseheart home and secretary of labor. It will be dedicated next June by President Harding. A campanile? Oh, that's a bell tower.

bassy. He is attached to the Japanese delegation at the conference.

Mr. Tomii folded his plump little hands. "We eat American breakfast," he smilingly announced, "egg, toast, strong tea."

"We wear American clothes, American suit—but sometimes, after work, we make American bee line for home, shed suits and put on easy kimono."

Mr. Tomii has digested American customs.

# LEGION AUXILIARY HAS MAPPED OUT GREAT PROGRAM FOR FUTURE

The American Legion auxiliary, completing its national organization at the Kansas City Legion convention, has before it a great program of expansion, furtherance of American ideals and aid to former service men. Mrs. Frank S. Henry, one of the state delegates to the auxiliary convention, has, at the request of The Tribune, written the following story of the organization convention:

"The American Legion Auxiliary came into being November 2, at Kansas City, Mo., with representatives from every state in the union and Hawaii on the convention floor. "Unanimous decision to support the American Legion in the posts, departments and nationally in all its aims and purposes was the keynote of the convention. The closest contact to the Legion was urged as necessary to the organization. The Legion's program for Americanism and legislation was upheld. The convention urged every state to cooperate with the federal government in providing courses in citizenship and instruction in English for native born and foreign born adults in need of such instruction. Educational institutions are to be asked to include in their curriculum a course in citizenship. The convention also went on record as being unanimously in favor of the adjusted compensation bill that is now before congress and that has the backing of the American Legion."

"The question of the care and justice to our disabled men was made a very important issue and the question of ways and means was taken up with an enthusiasm that promised not to wane until the need for proper hospitalization and vocational training no longer exists. The Auxiliary started a nation-wide movement to encourage the erection of monuments in the form of hospitals and homes for the disabled ex-service men. Purchase of articles made in America was urged, preference being given to articles made by disabled men in vocational training schools."

"The national officers were given power to negotiate with French authorities with a view to establishing a memorial school to commemorate the friendship between the American soldiers and sailors and the orphan children of France, the school to be an Agricultural school and to be a branch of the Joffre Institute of vocational training and to be known as the 'Foyer d'Apprentissage'."

"The principles of practically all the articles of the constitution of the American Legion, were adopted by the auxiliary and the clause reading 'To participate in and contribute to the accomplishment of the aims and purposes of the American Legion' was inserted in the preamble."

"Mrs. Lowell Hobart of Ohio was elected national president and Miss Pauline Curnick of Indianapolis national secretary. There are five vice-presidents, one from each section of the country and these with the national treasurer form the executive committee, and in this committee is vested the executive power."

Say it! "The Men's Clothes Shop."

# The Victrola gives you most for your money

Nowadays, more than ever before, people are intent upon getting their money's-worth, and it is at such times that the value of any commercial product is most accurately established.

The Victrola is not only the standard of quality but the standard of value. It is the product of the immense Victor factories where, because of wider experience and greater manufacturing skill, better goods can be made for less than the cost of inferior products—and the public benefits.

No matter which style Victrola you select it offers the greatest obtainable value at the price—whether \$25 or \$1500, but look for the Victor trademark on the instrument you buy.

THE STATE'S OLDEST NEWSPAPER  
(Established 1873)

CAN'T BE HIDDEN  
Can you read character in a face? Can you size up a person and know whether or not he can be trusted?  
Occasionally you meet some one who has the instinctive gift of penetrating any facial mask. "That fellow," you comment, "has eyes that look right through you. He can see to the bottom of one's soul. He's a good judge of character."  
This is a gift that can be acquired. Develop it, as one of your powers. It may save you from a heavy loss.

You have observed the different expressions that flit across a man's face as he sees something pitiful, strange, terrible, dangerous, ridiculous or new.

Those expressions reflect emotions that have been aroused. The face, in nearly every case, is the mirror of the soul.

Each of us is dominated by some one emotion—such as fear, caution, recklessness, greed, generosity, affection or trickery. When that emotion is excited in the average person, the face responds with a betraying expression. When that emotion is frequently aroused, finally becoming dominant, it is constantly mirrored in the face.

No difficulty in fathoming the man with a worried look, the man with a happy-go-lucky countenance, or the man with a greedy, eager expression. You know what to expect of them.

When you look into any person's face, merely ask yourself: "What emotion is this face betraying?" That gives you "his number."

Looks sometimes are deceiving. But this is the exception that proves the rule. Nine times out of 10, the face is a glaring billboard, easily read, revealing character.

The study of psychology, through analysis of facial expression, is being furthered by the movies. The film characters are constantly registering emotions, teaching people the meaning of facial expressions.

That gives you a great advantage. Your grandfather had no such teacher. His knowledge of facial expressions was acquired slowly, by experience. He had to reason it out, step by step.

Therein is the real intellectual value of the moving picture. It is making us a nation of shrewd psychologists, teaching us how to read the mirror of the human life.

This is a field in which men have much to learn. In the past, women have been the greatest psychologists. Cooped up in their homes, with very little to occupy their minds, they have, by concentrated analysis and deduction, become experts at "getting his number."

EASY MONEY  
Wealth, in the form of a valuable new idea, may come unexpectedly, to you—to any one. Take the case of Haskell, president of a western golf club.

The Goodrich Company, some years ago, was experimenting with golf balls. It sent samples to country clubs. Those first balls were "dead," like pieces of wood. Haskell suggested to a Goodrich salesman:

"You could put life into the golf ball by compressing the rubber core, before winding it, the same as squeezing a sponge."

"Been tried and doesn't work," said the rubber man.

"Then," proposed Haskell, "take a rubber core full of life, and wind it like a baseball, using a strip of rubber for wrapping. That will keep the rubber core under tension, without destroying its life."

Shortly afterward, says the Wall Street Journal, Haskell's idea was bringing him \$30,000 a year royalties.

Herman Frash, a young man, worked as a chemist for the Standard Oil Company. He quit and took up sulphur mining. Getting sulphur out of mines was costly and bad for miners' health.

Frash drilled a well into sulphur deposits. He pumped down hot water, melting the sulphur, then pumped the melted sulphur out by compressed air.

It was a simple idea, but it had made Frash a multi-millionaire when he died a few years ago.

Millions of men saw steam in a tea kettle lift the lid. It remained for Watt to realize that steam generated power, that the tea kettle lid

could be used on a big scale. A very common sense idea. It produced the steam engine.

A Paris printer saw a compositor pick up small pieces of colored paper that had been punched out of bookkeeping forms, throwing them on a girl worker in a rainbow shower. Other printers had seen that. This one, however, commercialized the idea, inventing confetti.

Jacques Montgolfier got caught in the rain. Drying his shirt before a fireplace, he noticed that the hot air swelled out and lifted the wet cloth. Lots of others had noticed that, but it didn't suggest anything. Montgolfier developed the idea and, with his brother, invented the first balloon.

History has thousands of similar cases.

Opportunity of this sort is lying all around us today, waiting to make us rich. The plums are ripe for picking. They mean great fortunes for those with imagination enough to apply commonplace happenings to useful devices.

CARELESS WITH OUR EYESIGHT  
Actual money you guard carefully. Even after it is in the bank, you hide the bankbook. Furniture and other belongings, you insure against fire. But good eyesight—that greatest and most valuable form of personal wealth—usually is handled as carelessly as if it were so much sand.

Ten thousand men and women are interrupted at their work by investigators from the Eye Sight Conservation Council of America. Examinations of the workers show that 53 out of every 100 have defective eyesight.

That explains much inefficiency. In most cases, defective eyesight can be remedied. The wearing of proper spectacles, even for a short time, often corrects imperfect vision. Have your eyes examined.

Guard them around emery-wheels or other devices that may cause blindness.

Lost money can be replaced. Lost eyesight is gone forever. Keep out of the City of Dreadful Night.

CUT  
On Armistice Day, November 11, 1918, the executive branch of the national government had 917,760 employees on its payroll.

This had been cut to 597,482 on July 31, 1921, says the Civil Service Commission. It took the commission three months to compile that figure, indicating the need of a better bookkeeping system.

The total of federal employees whom the taxpayers have to support is getting back near normal very slowly. Still, they are being fired at the rate of 260 a day. That helps.

TERROR  
An airplane, protected by steel armor plate and mounting 30 machine guns, has been perfected by John M. Larson, Long Island inventor and engineer.

Daily it becomes more certain that the next war's major combats will be fought in the air.

The coming disarmament conference has it within its power to prevent that "next war." Then brains like Larson's can devote themselves to the perfection of fool-proof transportation of passengers and freight by air. The inventor of a war device turns the clock backward.

RUBLE  
Russian ruble used to be worth nearly 52 cents in American money. Now it costs 1000 rubles to ride on a Moscow street car.

The reason? Because the soviet's printing presses have flooded Russia with 5,750,000,000,000 paper rubles. Note that the figure is trillions, not billions.

It isn't the face value—the amount—of money you get that really counts. Buying power is the thing.

WINTER  
A white robin is noticed by Mrs. H. C. Studley, innkeeper at Lorain, Ohio. Though not superstitious, she thinks this means a hard winter.

Most certainly, the coming winter will be more severe than the last one, says Dr. P. H. Dudley, weather observer for the New York Central Railroad. Cold winters usually follow hot summers.

"Lay in" your coal. Prepare to dress warmly.

EDITORIAL REVIEW  
Comments reproduced in this column may or may not express the opinion of The Tribune. They are presented here in order that our readers may have both sides of important issues which are being discussed in the press at the day.

A PLEA FOR DAD  
He may wear a last year's straw hat, his finger nails may need man. His vest may hang a little loose and his pants may bag at the knees; his face may show signs of a day's growth and the tin dinner bucket he carries may be full of dents and doughnut; but don't call him "the old man." He's your father.

For years and years he has been rustling around to get things together. Never once has he failed to do the right thing by you. He thinks his son the greatest boy on earth, bar none, even though the son plasters his hair back, wears smart clothes, smoke cigarettes and fails to bring home a cent. He is the man who won the love and life partnership of the greatest woman on earth—your mother.

He is "some man" not "the old man." If you win as good a wife as he did you will have to go some.—Wisconsin Apprentice.

DO YOU WANT TO STAY MARRIED?  
THESE CENTENARIANS TELL YOU HOW  
Do you know that 1,400,000 divorces were granted in the United States in 1920? That one of every nine marriages ends in divorce? That 38 per cent of them are granted for desertion?  
Do you know that every four minutes of every hour, day and night, some couple is getting the knot untied and almost arranged? That in six counties, statistics show, the number of divorces in 1920 exceeded the number of marriages?  
Do you know that in the last 20 years 1,767,182 American men and women obtained divorces? That, adding the minor children named in these divorce suits, nearly 5,500,000 Americans had their homes wrecked by divorce since 1900?  
In view of these appalling figures, The Tribune has asked Mr. and Mrs. James Bell, both over 100 years of age and married for 85 years and still happy together, to tell what is wrong with the American home today and how it can be remedied.

JAMES BELL—104  
MRS. BELL—102

Bell's Advice to Young Wives

By James Bell  
WIVES OF TODAY DON'T HAVE ENOUGH TO DO. That's where a lot of trouble starts. Either the wife has a maid to do the drudgery or the modern labor saving machines which take the work out of housework. Two hours of work a day is not enough for you. That's what I say to Mrs. Modern Housewife.

GET YOUR ENJOYMENT AT HOME.—That doesn't mean all the time—but generally. Too many wives think first of getting cleaned up and stepping downtown. It's always a wild rush for something new; new faces, new scenes, new forms of amusement. Make use of the good books, newspapers and phonographs in your own sitting room.

IMPROVE YOUR MIND. How many wives keep in touch with what their husbands are doing in a business way? Not enough, if you shouldn't have married him if you didn't intend to be a real helpmate. Talk over his affairs with him. Suggest things that will make his work easier.

KEEP THINGS TIDY AT HOME. A husband likes to come home and find his abode looking neat. And he also enjoys sitting down to a real meal. Only a brute will tire of a wife who thinks and acts on these lines.

DANCE WITH YOUR HUSBAND. When the dance music starts up to-day you usually find a man dancing with some other wife than his own. Don't let your husband be a last resort. Let him know that he is as good a dancer as any of them.

FIGHT THE BIG OBSTACLES OUT. Too many wives abandon their husbands when a bit of trouble turns up to mar married happiness. That is just the time when he needs your help.

GIVE HIM A CHANCE TO UNDERSTAND YOU. No man can begin to understand his wife in one year or ten, for that matter. In my own case, I have kept learning right along and I expect to keep on learning.

MOST DIVORCES ARE UNNECESSARY! It used to take a pretty sizable rock to wreck the matrimonial bark, but now it seems the ship gradually settles on a sandy shore and at the first indication of danger the principals jump for their lives. But they jump the wrong way. Jump together instead of apart—and work out your little troubles.

NOTICE  
All property owners are hereby notified to clean snow from their sidewalks before eleven o'clock in the morning following the date of any storm. In case of failure to do so the same will be cleaned by the city and the cost charged to the property.  
M. H. Atkinson,

Mrs. Bell's Advice to Husbands

By Mrs. James Bell  
MAKE A FUSS OVER YOUR WIFE. That's my advice to young men who are married. In my days the girls used to like that. I guess it's pretty much the same today. A married man too often forgets the little attentions he formerly bestowed on his wife.

VERY GIRL LIKES TO BE TOLD SHE IS AN ANGEL. It pleases her when her husband remarks that she has the sweetest face and is a smart home manager. People will grow old but a girl likes to be made to think she hasn't aged.

THE HUSBANDS OF TODAY AREN'T OBSERVANT ENOUGH. Too often the young married man comes home tired out and is about as uncommunicative as an oyster. It's a good idea to mention special dishes that are prepared for the evening meal and to notice little changes in the home.

A MAN SHOULD REMEMBER THAT HIS WIFE IS ALONE ALL DAY. Husband, of course, is in the company of other men. He has business to think of and folks to talk to. Wife, however, has plenty of time to just think about HIS coming home. And when he arrives—and retires into his shell—what a disappointment.

GIRLS LIKE TO LOOK UP TO THEIR HUSBANDS. It's up to the husband to make himself worthy of it. A woman is naturally a hero worshiper. Is husband a real hero? Not always.

GIVE YOUR WIFE A CHANGE. It is cruel to expect her to cover the same routine every day. Take her to the restaurant once in a while. Share in her joy of planning a vacation. Give her something to look forward to.

DON'T BE "SMALL" ABOUT MONEY MATTERS. The young wife deserves credit for running the household. Praise; don't scold. If she is really extravagant, summon all your tact and ask her cooperation in cutting down expenses. But don't lay down the law to her.

DON'T SPEND EVERY EVENING AT HOME. If you don't belong to a lodge, invent some excuse to take you out at least once a month. She'll appreciate you. Boredom follows monotony.

"OUT" SO AM I!

ADVENTURE OF THE TWINS

By Olive Barton Roberts  
How quickly the Twins slipped off their own little stout brown shoes, and how excitedly they slipped on the wonderful magical green ones that the fairy mushroom had brought them. They knew the power of those wonderful shoes, how, with just the merest scrap of a wish, they would carry their wearers to the ends of the earth up to the stars, under the ocean, over the mountains, and into any part of Fairyland. And now they were going under the earth and into a part of Fairyland where the Brownies lived. They were going to help Mr. Pim Pim to gather up all the things for the Christmas trees. Of course Mr. Pim Pim doesn't trim the trees, but you've no idea how Santa depends upon him and the Brownies for help. They get him all sorts of bright toys for tree-toppers out of the secret places under the earth. Sacks full of golden-glitter and silver-sheen, boxes of gleaming-green and blazing-blue, (uses of ruby-red and sapphire shine, and whole pounds of glittering, glowing, sparkling, wonderful white to put over everything.)

Now, you know, my dears, how the good Mr. Santa gets his wonderful colors to dye all of his ornaments for the Christmas trees. From Mr. Pim Pim and the Brownies, and who knows? When you look at your tree this year you'll never know but that Nancy dug up some of the beautiful blazing-blue for the lovely glass ball near the bottom, or that Nick helped Mr. Pim Pim to find the crystals of ruby-red to color the big glittery star at the top.

"I think," said the Mushroom "that the entrance to the Land of Underneath" where Pim Pim reigns, is just by the dog-wood tree. Yes, I remember perfectly, that's just where it is, to the left of those stones."

BAD BREATH  
Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, cleaning the blood and generally purifying the entire system. They do that which dangerous cathartics does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without any of the bad and disagreeable effects.

Dr. T. M. Edwards discovered the formula of these tablets years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil you will know them by their olive color. Take one or two every night for a week, and note the effect. 15c and 30c.

## MOTION PICTURE AND FOOTBALL

### To Go Hand in Hand Says Coach Yost

Ann Arbor, Mich., Nov. 21.—Motion pictures are to play an important part in the future coaching of the Michigan varsity football squad, Coach Franz H. Yost announced today after an investigation along this line.

Coach Yost covered the value of motion pictures to a football coach by accident. He asked a local motion picture camera man to take 1,500 feet of film of the Michigan-Ohio State game. It was Yost's intention to complete a pictorial record of important Michigan games to be shown about the state and at class reunions in the future.

When the pictures were delivered a small room adjoining Yost's office was converted into a projection room and the pictures shown upon a small cardboard, the motion picture machine being focused to show all of the play on the cardboard. Although the figures in the pictures appeared to be but a few inches in height, Coach Yost, by standing close to the cardboard, obtained as good a view of his team in action as though he had been playing in the back field. The value of motion pictures for training purposes became apparent to the "hurry up" mentor. By turning the machine slowly he found he could obtain the results of a rapid action camera. Yost turned the reel through the machine over and over again, studying the manner in which each of his charges conducted himself in the Ohio State game. He learned which of the men followed the play at all times and which lacked aggressiveness. After the demonstration was over Yost had accurate information concerning the good and bad points of each member of his squad who appeared during the game.

"I cannot say that motion pictures will revolutionize coaching but they will aid us considerably in giving us close-ups of the men under fire," Coach Yost said. "The camera records facts that cannot be discerned from the sidelines during a game. A coach knows his men better by having seen them on the screen."

Yost will attempt to procure a screen record of the Wisconsin and Minnesota games.

The pictorial record will not be confined to football, the mentor said, but pictures will be taken of games in all varsity sports.

### WORLD RECORD IN BILLIARDS IS ESTABLISHED

Chicago, Nov. 21.—A world's record for 152 ball billiards tournament play was established by Jake Schaefer of Chicago when he averaged 200 by defeating Welker Cochran of San Francisco, in a match in the international tournament being held there. Cochran failed to count.

Schaefer ran a run of 82 in the first inning and ran out with 318 in the second. The best previous averages were 88-1-3 made by Willie Hoppe in 1915 and 100 by George Sutton nearly two decades ago.

George Sutton, the young Chicago star defeated O. A. Morningstar of San Diego, 400 to 2-1. Sutton played out in twelve innings with a high run of 156 while Morningstar had a high run of 237. Sutton's victory was the first in his five tournament matches.

Hoppe, the title defender, defeated Edmund Florenas, the Belgian and champion of Europe, 400 to 579, in 19 innings. Hoppe has won every match in which he has participated.

# CASCARETS 10¢

## For Constipated Bowels—Bilious Liver

The nicest cathartic-laxative to give your bowels when you have

|           |              |
|-----------|--------------|
| Headache  | Biliousness  |
| Colds     | Indigestion  |
| Dizziness | Sour Stomach |

is candylike Cascarets. One or two tonight will empty your bowels completely by morning and you will feel splendid. They work while you sleep. Cascarets never stir you up or gripe like Salts, Pils, Calomel, or Oil and they cost only ten cents a box. Children love Cascarets too. Adv.

For your patronage during the past year we are truly Thankful.

# IOWA "BIG TEN" FOOTBALL CHAMP

## For First Time in 20 Years Hawkeyes Hold Honors

Chicago, Nov. 21.—The western conference football season closed Saturday with the University of Iowa eleven to one undefeated champions for the first time in 20 years.

The upset through which Illinois beat Ohio State, 7 to 0, combined with Iowa's victory over Northwestern left the Hawkeyes at the top of the percentage table and avoids what appeared to be a certain tie between Ohio State and Iowa for the title. Ohio State and Chicago are tied for second and Wisconsin fourth.

The final standing:

|              | Won. | Lost. | Tied. |
|--------------|------|-------|-------|
| Iowa         | 11   | 0     | 0     |
| Ohio State   | 4    | 1     | 0     |
| Chicago      | 4    | 1     | 0     |
| Wisconsin    | 3    | 1     | 1     |
| Michigan     | 2    | 2     | 1     |
| Indiana      | 1    | 2     | 0     |
| Minnesota    | 2    | 4     | 0     |
| Purdue       | 1    | 4     | 0     |
| Illinois     | 1    | 4     | 0     |
| Northwestern | 0    | 5     | 0     |

Saturday's game not only established Iowa as supreme in conference circles but gave the eleven virtually an undisputed claim to the championship of the midwest. The Hawkeyes, besides winning five conference games and losing none, defeated Notre Dame, the leading middle west team outside of the Big Ten. Notre Dame defeated Nebraska and also the Army.

# CITY OF TIFLIS AS IT WAS—AND AS IT LOOKS NOW

From City of Galety and Prosperity. It is Now Full of Misery

Tiflis, Georgia, Nov. 21.—(By a Staff Correspondent of The Associated Press).—Tiflis is a city that by day, is a table by night. The last city of importance to come under the influence of the Bolshevik emblem of the hammer and the sickle, replacing the double-headed eagle of the empire, here are contrasted with the happy old days of gaiety and prosperity with the dull misery of the new regime.

At the railway station, on entering the city, the difference is seen and felt. Instead of swarming guards in black boots, black long coats and flash silver belts and swords, are seen a few ill-dressed Red soldiers, looking hungry and uncomfortable in ill-fitting clothes held together by a loose belt. Barefooted, dirty, white-faced, ragged boys clamor for a chance to carry baggage.

Peasant women and bourgeois women of the old time stagger along under loads of baggage or packages of food and fruit brought from the country. Broken down backs wait for fares, pulled by thin, underfed horses. The streets are dirty and ill-swept, full of holes.

People wear clothes that seem to belong to another era. Here where a dozen tongues are spoken and where two tribes used to gather in the proud finery of their national costumes, all is down at the heel.

Women often go stockinged. Their shoes show signs of patches done over and over again until they are composed of patches only. Their skirts may be of old pieces of silk and their jackets of military cloth or even the black leather of aviator coats. Shawls have replaced hats.

The men civilians wear clothes that are a parody on shabby gentility. Their top boots are all top, the soles and heels long since worn away. All sorts of military odds and ends, from all the armies of Europe, contribute to their dress. Khaki puttees, yellow leather packets, British canvas trousers, French blue caps, United States army coats.

The stores are boarded up, for the most part and when open surely have a few bottles of French or Italian perfume and a little else. A pair of American shoes of poor quality, worn in one window, marked 750,000 rubles, an incredible sum of money in a city where a monthly salary of a Soviet employee is 3,000 to 5,000 rubles.

Small trading is done on the market place, where starving families sell off finery and jewelry which escaped the wrecks of their homes. These homes, once so comfortable and bountiful in hospitality, are cold for lack of fuel, dreary for lack of food, often curtainless, with here and there bullet marks on the outside walls. The toilets and baths are useless, because the city water supply is cut off for lack of fuel.

The Red army in occupation has orders from Moscow to be "good" to Georgians and it is "good." Yet its commanders go about with set, stern faces as if the world was watching. Cholera in summer, starvation in winter, this is the lot of Georgia.

# LEAGUERS WILL ALLEGE FRAUD; DENIAL IS MADE

(Continued on Page 2)

with Independents saying they had several thousand names which were not filed.

Independents, it became known, would be represented probably by B. F. Spalding, of Fargo; C. L. Young, of Bismarck, and J. J. Kehoe, of Cando, who successfully presented the taxpayers' bond suit in district court, if the case comes to trial.

Nelson's View

Theodore Nelson, secretary of the Independent Voters Association, came back to Bismarck last night. He issued a statement this afternoon on the case as follows:

"It looks like a case of some fellows wanting some Xmas money out of the pockets of well-meaning Non-partisans who do not realize that after 111,000 people have voted for the change in our state government that was asked for in the recall petitions that there can no longer be any doubt on the question of whether there were as many as 69,000 that wanted that change. Under our constitution the secretary of state is required to call a special election on the question of changing state officials if it be indicated to him that there are 68,881 voters who want a change. The recall petitions in this case were an indication of that desire on the part of the people and the result of the election is proof of it."

"The fellows who are now talking

### Feeling Gippy? Cold Coming On?

DRY, tickling sensation in the throat, headache, feverish, eyes ache. Don't play with that on-coming cold. Get Dr. King's New Discovery at once. You will like the way it takes hold and eases the cough, loosens the phlegm and relieves the congestion in the eyes and head, and soon breaks up the most obstinate attack of cold and gripe.

Children and grownups alike use it. No harmful drugs, but just good medicine for colds, coughs and gripe. Sold by your druggist for 60c.

# DANDERINE

## Stops Hair Coming Out; Thickens, Beautifies.

35-cents buys a bottle of "Danderine" at any drug store. After one application you can not find a particle of dandruff or a falling hair. Besides every hair shows new life, vigor, brightness, more color and abundance.

contest on the grounds of insufficiency of the petitions had forty days before the election in which to raise that question. They were told repeatedly that if they didn't think there were enough they could have more. We can't help that they didn't call for more at the time that they should have called for them. There were several hundred signed petitions in the hands of local workers at the time the petitions were filed with the secretary of state. Many of these can, no doubt, be rounded up yet and added to the bunch that is left at the Independent state headquarters and filed with the secretary of state, that is, if the question of whether or not there were 69,000 voters signed up at the time the secretary of state called the election.

The two thousand or more people who circulated the recall petitions in their respective communities are honorable and respectable men and women. To charge that they have resorted to fraud in getting signatures of the petitioners is an unpardonable insult that not even the reasonable Non-partisans will soon forget. The sentiment of the petition circulators was expressed by Ex-Senator John E. Paulson of Trail county yesterday when he said to me. "If anybody questions my petitions send me a telegram and I'll come to Bismarck and give them the section, number or street number of every signer."

# SOCIAL AND PERSONAL

#### B. and P. W. CLUB MEETS

The regular meeting of the Business and Professional Women's club will be held at the club rooms on Tuesday evening, November 22. Miss Frances Mallory, principal of the William Moore school, will give a talk on a most interesting trip she had this summer down the Great Lakes, stopping in New York City, Boston and Washington, D. C. for several days. The old-fashioned New England Thanksgiving will be a feature of the talk. Miss Mable Campbell will give a reading and Miss Clara Smith will sing. A most interesting meeting is anticipated.

#### GIVES BIRTHDAY PARTY

Albertine Gretchen, the little daughter of Mr. and Mrs. Fred Ohde, celebrated her fourth birthday on Saturday afternoon by entertaining ten of her little boy and girl friends at her home. The afternoon was spent in playing games. The decorations were of a color scheme of pink and white. Pink flowers were given to each little guest. A birthday cake of pink and white with four candles was the attractive center piece used for the birthday lunch.

#### VISITING IN FARGO

Mrs. R. T. Wood left on Sunday for Fargo where she will spend a few days visiting with her son Emmett.

#### LEAVES FOR HOME

Miss Alice Tillman left yesterday for her home at Callaway, Minn., where she will spend the winter at the home of her parents.

#### VISITING IN BEMIDJI

Master Leslie Wood left on Sunday for Bemidji, Minn., where he will spend a few weeks visiting with his mother and sister, Dorothy, whom he hasn't seen for over three years.

#### ACCEPTS NEW POSITION

Miss Catherine McGarvey left yesterday for Bowman, N. D., where she has accepted a position in the county auditor's office there. Miss McGarvey was employed at the Lahr Motor Sales company while in Bismarck.

# BANKERS ARE CALLED HERE FOR MEETING

### Full Explanation Regarding War Finance Loans Will Be Given

A meeting for instruction and assistance in all matters relating to applications for loans from the War Finance Corporation will be held in Bismarck Wednesday, November 23, beginning at 9 o'clock.

The meeting will be in charge of J. L. Bell, member of the North Dakota War Finance Corporation committee, who will give information and instructions that may be needed for making loan applications.

Mr. Bell has returned from Minneapolis where he spent a week at the offices of the Agricultural Agency, handling War Finance loans to bankers in the northwest, and is fully prepared to give all information that may be desired by the bankers of the Slope country. The meeting will be held in the Commercial club rooms. The meeting was called by the state bankers association.

# DEER HUNTING IS ON TODAY

## Many Bismarck Hunters Take Field

The first hunters to report success in deer hunting today were Ambrose Brazier, John Brazier and J. P. Spies. Each got one deer, a buck, average weight about 150 pounds, 28 miles north of Bismarck. They promised the deer would be brought in by this afternoon as proof of their success.

Deer is being hunted today. For the first time in five years there is an open season, and Bismarck's experienced hunters were in the field. Many of them left yesterday for various parts of the country within 75 miles of Bismarck. A large number went north of Mandan where plenty of deer were reported.

The number of deer is not unusually large, although they have multiplied under protection which has not always been respected. Recently a fawn came down out of the ravine to the north part of the city, jumped the fence into Dr. Ramstad's yard and then killed itself trying to jump out. The deer law allows the shooting of one buck only.

# How Yeast Vitamon Tablets Put On Firm Flesh

Strengthen The Nerves and Invigorate The Body—Easy And Economical To Take—Results Surprisingly Quick.

If you want to put some firm, healthy flesh on your bones, increase your nerve force and power, clear your skin and complexion and look and feel 100 per cent better, simply try taking two of Mastin's tiny VITAMON Tablets with each meal and watch results. Mastin's VITAMON Tablets contain highly concentrated yeast-vitamins as well as the two other still more important vitamins (Fat Soluble A and Water Soluble C) and are now being used by thousands. Mastin's VITAMON Tablets never cause gas or upset the stomach but, on the contrary, improve digestion. Be sure to remember the name—Mastin's VITAMON—the original and genuine yeast-vitamine tablet. There is nothing else like it, so do not accept imitations or substitutes. You can get Mastin's VITAMON Tablets at all good druggists.

Are Positively Guaranteed to Put On Firm Flesh, Clear the Skin and Increase Energy When Taken With Every Meal or Money Back

## MASTIN'S VITAMON

THE ORIGINAL TABLETS

GENUINE YEAST VITAMIN TABLET

if it isn't MASTIN'S it isn't VITAMON

# TODAY

Many men will be out DEER hunting today—this day starting the hunting season for DEER, and many others will be DEAR hunting—this particular DEAR hunting enjoying an open season.

I have nothing to sell you for your DEER hunt, but those on their DEAR hunt can get their ammunition in the form of a tailor made Suit or Overcoat.

DEAR hunters—come in and look over my supply of suitings, styles and prices.
